

**Funds from School Sources for
Additional Staff Allocation
Board Policy**

BP 305.16

Department: Human Resources
Section: Employee & Labour Relations

The Annapolis Valley Regional School Board has developed guiding principles for school-based staff allocation purposes to provide fair and equitable staffing to all schools/worksites and to ensure that every student, regardless of where they live in the region, has access to high quality educational opportunities. There may be exceptional circumstances where a school may wish to use external funds to secure staff allocations beyond those provided by the Board's respective staffing allocation formulae. The additional staff is not intended to be a permanent or an eventual Board-funded increase to the staff allocation for a school.
